

SAVE THE FRESNO VETERANS HOME

Dear Governor Brown, President Pro Temp Steinberg, and Speaker Pérez:

The willingness of our service men and women to make the ultimate sacrifice for our country is what makes our country great. Our brave soldiers have returned from the call of duty with serious injuries that require quality health care and need the services we promised to provide to them.

We all know the state is facing financial challenges, but a greater effort must be made to prioritize funding to open the Fresno Veterans Home.

The skilled nursing and residential services, which will be provided at the Fresno facility are desperately needed and are long overdue.

As our leaders, we urge you to please do whatever is necessary to restore funding for the Fresno Veterans Home. The sooner the facility opens, the sooner it will be staffed and ready to serve our Central Valley veterans and veterans statewide.

Sincerely,
